January 1st, 2009.

Subject: Report of Flammability

This document confirms that the CHEMCAST[®] general purpose acrylic sheet, colors 2283, 2157, 2423, and 2793, is in agreement with the standard UL 94, "Test for Flammability of Plastic Materials for Parts in Devices and Appliances". After internal testing, CHEMCAST demonstrated a burning rate less than 40 mm per minute; as a result the material can be classified as 94HB.

This result is only a notification of the obtained findings and it does not constitute a product certificate.

CHEMCAST

Sincerely yours,
Plastiglas de México
